## **Customer Reviews**

For an intermediate beginning level reader of sheet music. Requires following a melody from left to right hand. More challenging than Christmas in the Key of C, but the upside is that the arrangements are more lengthy and complex - more impressive - once learned.

I love the selection and arrangements in this book. I use it for my piano students, and I love that I can know the songs are right at their level since I teach them from the Faber Piano Adventure Series.

My students thoroughly enjoy this book. It has a great variety of Christmas songs and arrangements that are fun but not too challenging.

I also have the Level 1A songbook and I actually preferred the songs in the 1A. I felt the songs in 2B were embellished just to add more difficulty, but not necessarily to make the songs sound better.

Just what we needed to practice for our recitals. Our piano teacher recommends this book. Just the right amount of challenge for new level 2 students

Great book for chord players, Easy to read and several entertaining songs.....
