5 Conversations You Must Have With Your Daughter

Synopsis

5 Conversations You Must Have with Your Daughter - Member Book by Vicki Courtney provides a personal study experience five days a week plus viewer guides for the group video sessions of this in-depth women's Bible study. Your daughter's growing up. The world has a lot to say to her, and she's starting to listen. Even if she doesn't quite know it, she needs you more than ever. It's time for you to press in, to tell her some things she might not know (or might have forgotten) about who she is in God's eyes. Just five conversations, but they could be the basis for a whole new way of relating to your daughter. 5 Conversation Topics: You are more than what people see on the outside. You shouldn't be in a hurry to grow up. Sex is great and worth the wait. It's okay to dream about marriage and motherhood. Girls gone wild are a dime a dozen. The Member Book includes five weeks of home study, viewer guides, discussion questions, and a leader guide for facilitating six group sessions. --This text refers to the Paperback edition.

Book Information

Audible Audio Edition

Listening Length: 8 hours and 12 minutes

Program Type: Audiobook

Version: Unabridged

Best Sellers Rank: #368 in Books > Parenting & Relationships > Parenting > Parenting Girls

#708 in Books > Parenting & Relationships > Parenting > Teenagers #862 in Books > Parenting & Relationships > Family Relationships > Motherhood

Customer Reviews

This book is clearly intended for moms, but this dad learned a lot. I began reading this book on a plane during a business trip. Based on the title alone, no less than five flight attendants thanked me for reading it and expressed their wish that their fathers had read something similar. I was also approached by a couple of female passengers. None of my four flights passed without someone commenting on the book. Obviously, the topic of this book fills a need. The author is unabashedly Christian, but her information and guidance are applicable regardless of your religious tendencies. If

you're uncomfortable with Christianity, just mentally substitute "grandpa" for God and "Important Psychology Textbook" for Bible, and you'll discover that it really is universal. The author espouses her ideals but is careful to explain that each family and each daughter are different, and that an overly strict "one size fits all" approach will not be successful. She also accepts that every parent is imperfect, having made their own mistakes while growing up (and likely continuing to make mistakes). She admits her own mistakes and is very open about the abortion she had as a young woman. Obviously, this is not a woman who would disown her daughter for pre-marital sex or teen pregnancy, but she recognizes these are not the goals. This book offers great information and guidance on ways to reduce their likelihood. What opened my eyes the most was the information on the effect of media on little girls. When I look at a covermodel on a magazine, I think "Wow, she's hot." I generally take little notice of the men on magazine covers (sorry, I'm just a typical guy).
