Customer Reviews

Thank you Lindsay for being born!!! I've read countless self help books by various authors over the last three decades but, still, I never got to the heart of what was causing within me a pervasive sense of sadness, loneliness and not belonging. I've lived life mostly on the outside and in a detached way. Seldom did I feel that I fully connected with others. People would say I was a very likable person but I couldn't understand why. I never knew that I was attractive until a friend told me when I was in my teens. Even then I thought why is she saying that? I often took a backseat because I didn't have the confidence to stand up and be noticed. I could give countless examples going way back to my early childhood but suffice to say that Lindsay's book is the story of my life. I'm an internalizer. My sister is an externalizer. In many ways my parents weren't mature enough to deal with my sister's temper tantrums and her destructiveness. I was always on the

receiving end of my sister's evil doings but my parents blamed me for her s. They would give in to her all the time and at my expense. They had no control of her. My sister and mother were always together and my father adored my sister whilst, I was the pregnancy they didn't want. Yes, my mother told me that she tried to abort me during the first five months of her pregnancy, but in her words said, I couldn't get rid of you! So, she said, you were born and we were stuck with you like it or not. I was about seven years old at the time and didn't fully understand then what she was saying until I grew older. Mother's jealousy, envy and resentment towards me were not recognized at the time but, on reflection, I now realize how damaging it was.
