These are really great if you are just beginning cello lessons. Many of them you can play right away and others will work a little later into your studies. It is important that those who take cello lessons also get to play some real music in stead of just exercises. This book will help you to achieve that. Again, it is mostly for those who are just starting playing the cello in the first 2-10 months of lessons.

Some good songs in there but, it says its for beginners. I bought this for my son based on a few reviews that said it was good for beginners who are literally just starting. That is not so. Another down side is I bought this for my nine year old who has been playing for 2 months i only know a handful of the songs, he knows less than that so hes not that interested. when I read a few of the songs mentioned i thought it would be great, if i had seen the entire list i probably would have

skipped it

My son loves this book. It was fun for him to have songs he recognizes to play. He has played the cello about 3 years now, just in school, no private lessons and the book seems to be about right for him.
