Customer Reviews

It actually says "blue flowers cute design" on the book itself... I thought that was just shown over it in the picture as a description but it's printed on the book! Kind of strange but other than that it is really pretty. It's a soft paper cover with a rubberized feel to it. If it just said "Address Book" on it, it would be perfect.

Terrible quality. It literally says "Blue Flowers Cute Design" on the cover. As seen in the picture, it appears via the add that it is just a simple description of the product, but alas it is printed right on the cover. Very tacky!It is made of cheap children's coloring book quality paper. It is glued together along the spine of the book. Any use whatsoever will render this product broken within a few flips of the pages. Once you find (without tabs) the letter you are looking for.Extremely cheap construction. Not something you would expect from being "Made in America".DO NOT BUY!

Flimsy and odd that it literally says 'blue flower address book' or something of the sort, on the front.

GREAT BUY
