# The Obama Diaries

## Synopsis

Popular conservative radio host Laura Ingraham discusses President Obama's first year in office. Informative and hugely entertaining, *The Obama Diaries* will inspire both laughter and critical thinking about the future of the nation and the man currently at the helm. Major media outlets love to describe the president as "no drama Obama", but *The Obama Diaries* tells a different tale. Through these "diary entries", listeners will see past the carefully constructed Obama façade to the administration's true plans to "remake America".

## Book Information

Audible Audio Edition

Listening Length: 11 hours and 11 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Simon & Schuster Audio

Best Sellers Rank: #80 in Books > Audible Audiobooks > Humor > Political Humor #911

in Books > Humor & Entertainment > Humor > Political #1909 in Books > Politics & Social Sciences > Politics & Government > United States > Executive Branch

## Customer Reviews

Laura Ingraham has pulled back the curtains on No Drama Obama to reveal that there is plenty of drama being stage-crafted 24/7 by the current administration. Satire, in the form of fictional diary entries, purportedly written by key players in the Obama administration, is a relatively small part of this book. The narrative portions cover events that actually happened, hence the NON-FICTION designation. The satirical diary entries are hilarious and believable because they flow naturally from the REAL words and actions of all the key players. It's entirely plausible that those who are currently running our country actually think this way. Ms. Ingraham presents many cogent points in this book RE: the Obama presidency. The media marketing of Obama began with what she terms the Razzle Dazzle effect -- the glitzy packaging that was likely the main reason behind his election. Laura Ingraham peels back the layers behind the Razzle Dazzle to reveal the personalities behind the hype. For example, guess who might have Narcissistic Personality Disorder? The compelling

revelations begin on page 264. On page 253, there is a description of the night Obama received the Democratic nomination for the presidency. His soaring rhetoric included the remarks, " . . . This was the moment when the rise of the oceans began to slow and our planet began to heal." Obama actively cultivated this messianic imagery throughout his presidential campaign. Ask yourself what type of person would think that his political candidacy had any kind of effect on the movement of the oceans or the "healing" of the planet? This is alarming. The non-fiction narratives reveal that every action of the Obamas has been choreographed for maximum political effect.

I am going to rate this based on its comedic effort only. Not a particular fan of Ingraham, although I have seen a lot worse personalities. First thing everyone needs to remember is....this is satire. Comedy. It is supposed to be funny!! Remember back when GW was President?? Remember how Leno, and Letterman, and O'Brian (and so many others..) were constantly lampooning him for one thing or another. I personally think GW was one of the funniest Presidents I have ever heard speak. You could never tell what was going to come out of his mouth. He had the uncanny knack of saying something wrong, or pronouncing it wrong, or losing his thought process, or whatever else....And also remember how the media and the authors constantly jumped on him because of it....Well folks, that was because he was the object of satire....and satire is funny!! This book is no different. It is a satirical commentary on the President. It has no basis in fact and anyone who 'believes' the anecdotes as reported within needs to have their head examined!! Ms. Ingraham has simply written a satirical piece that is quite humorous....and although it pokes fun at the President (and advisors, and ...), it is still just a piece of satire. Frankly, it reminds me of a Saturday Night Live skit without the video. You know how SNL is willing to take on ANYTHING or ANYONE.....once again, satire. That is what makes it funny! Unfortunately, a certain percentage of those who read this book think it is real and use it as a point of reference. (What? Really..??) Yep, those stupid people on the right..they don't even know that this is really fake. So say the stupid people on the left. And those left-leaning people are monstrously offended because someone has the unmitigated gall to lampoon their dutifully elected leader.
