Practical Studies For Saxophone

Book 1

Synopsis

A supplement to any of the elementary methods available for saxophone. It contains studies for rhythmic development designed to aid the student in developing sight-reading ability. Included also are daily technical exercises which consist of indispensable scale, arpeggio, and interval work which should be included in the daily routine.

Customer Reviews

Great etude book for beginners.

Very good exercise book for saxophone, helps in learning notes, and fingering. Use it every day to warm up.

As a music education major I find these books very helpful not only for teaching lessons, but for picking up other instruments as well.

Have not yet started in this book as of yet. But look forward to my continued studies. High rating given for my overall excitement of learning to play.
