Important note from a flute teacher - PLEASE READ.I love the Flute 101, 102, 103 and Scale Book series for flute students. But, it is very important to note that this is the PIANO ACCOMPANIMENT book.The flute part - which contains the exercises, etudes, duets and solos - needs to be purchased separately. It is also available on , but you need to be aware of which version you are purchasing. The piano accompaniment book says "Piano Accompaniments" in red on the front cover.I have had a number of students accidentally purchase this piano accompaniment - which would be necessary if you are performing a solo from this book with a pianist for a recital or competition. If you are looking for the flute part, run a search again, you will find it!

This is a great transitional method for flutists who are learning to practice and transition into performing longer works on recitals.

Nice choice, nice continuation of flute 101. Would have been nice to have some more songs. Overall good though. Would do it again.
