String Builder, Bk 2: Cello (Belwin Course For Strings)

Synopsis

The Belwin String Builder is a string class method in which the violin, viola, cello, and bass play together throughout. Each book, however, is a complete unit and may be used separately for class or individual instruction. The material in this book is realistically graded so that only a minimum of explanatory material is required. Each melody is interesting and will provide the basis for a fine left hand technic and bow arm. Available in three levels for violin, viola, cello, bass, piano accompaniment, and teacher's manual.

Customer Reviews

I have String Builder books for Violin 1 -4. The have helped me with my Violin so I got them for my Cello. They are just a wonderful. Have used the book through School, and My Son and Grandchildren also use them. The do help you build your skills.

My daughter likes this method better than Suzuki. Suzuki is designed for little kids who can't read and emulate the teacher or sound. So this is better for older kids.

GOOD :)
