Customer Reviews

The information contained in this book is invaluable for those looking to understand their credit and how the system works. What I particularly like is the ease of reading and the way the chapters are conveniently laid out in a way as to move easily through the book and find exactly what you're looking for. Where it really shines is the chapters on repairing your credit and dealing with unscrupulous bill collectors. I highly recommend this for book for anyone looking to learn about how to responsibly use credit and for those looking to repair their credit and deal with bill collectors. Nolo makes the best legal layman guides you'll ever read.

Very little information on all teh various types of disputing credit errors and mosr of the book is about

managing your debt which is VERY misleading. I am very disappointed:(

Purchased for someone else. She loved it.

Very Good I recommend !!!!!
