Weapons Of War Bombers & Transport Aircraft 1939-1945

Synopsis

Part of the Weapons of War series, this book features more than 150 color and black & white illustrations and photographs as well as detailed specifications about bombers and transport aircraft. Bombers & Transport Aircraft, 1939-1945 brings together the most important bombers and transport planes of World War II in a single, handy volume arranged in alphabetical order. The book includes classics such as the Lancaster heavy bomber, B-17 Flying Fortress, Heinkel He 111, and the Junkers Ju 87 "Stuka" divebomber. Features 150 entries of the most important weapons of the era. Every weapon is illustrated with an accurate color artwork. Each entry includes a specifications table with essential information such as armament, weight, speed, and range. Concise text provides a summary of the design, development, service history, and performance of each weapon.

Customer Reviews

I found several inaccuracies such as the Blenheim Mk IV, page 59, and Mk V, page 60, profiles are reversed. Profiles for the Do 217, page 72 and Ju 88, page 121 are night fighters. The NA B-25C/D, page 146, is a B-25J strafer, not a B-25C/D. NA P-51A/C Mustang is included and should not.

Great informational book for history buffs

great book, highly detailed

most of the stuff in these series of books came out years ago in a barns and noble series of books

A great book
