Customer Reviews

This is truly an excellent beginners piano book. I was pleased to find that the songs maintain their sound texture even though they are an easier version than the originals. Always pleased with Hal Leonard sheet music.

I JUST started learning to play the piano and with some practice and patience I was able to play several of these songs! Great for a beginner just learning to read music. I prefer to learn using music I like vs. Old McDonald, etc.

I have only basic piano skills, so this book is perfect for me. I'm not sure if it is the exact way she does her songs, but I would assume its not because its an easier rendition of the song. Still a good book for those who want to play Adele's music but don't want to brave the full song.

The songs were a little too over-simplified and too easy for my daughter who is a beginner-intermediate player. Bought her Adele - 21 Easy Piano, which was a little more challenging, but still very manageable.
