I have been waiting for this for so long. A tabbed out version of Covered in Rain. Honestly it is about 7 years too late. But I would have KILLED for this at the beginning of my guitar journey when I obsessively played john mayer 24 hours a day. Now i've gotten accustomed to doing this on my own. But still this book is robust and amazing. So buy it, worth EVERY penny.

This book is awesome! really needed something to be able to follow along with instead of trying to look these up online

Do not buy for Kindle. The tabs are so small you can't read them and there's no way to adjust the settings to see them clearly enough.

Let me be clear this book has excellent transcriptions, you won't find any better online. It's a great learning tool....but it could be better. The problem is that it doesn't have enough variety in the pieces

it contains, it should be called "John Mayer : Where The Light Is" tab book. There are 14 tracks, 11 of which are from where the light is. It's a great performance no doubt but there are so many others that deserve to be on a book titled "John Mayer Live: The Great Guitar Performances". What about "Man On The Side" and "Back To You" from Any Given Thursday? Or "Come Back To Bed" and "New Deep" from As/Is Volume 4 and 5? All of which are performances that contain some of his best lead guitar work. So in short: good book, not great, excellent transcriptions, mis-titled, not enough variety. Here's what it actually contains: From WTLI:-Belief-Come When I Call-Every Day I Have the blues-Good Love Is On The Way-Gravity-I'm Gonna Find Another You-Neon-Out Of My Mind-Vulture-Who Did You Think I Was-Why Georgia From AGVT-Comfortable-Covered In Rain From AS/IS-Blues Intro

Tab seems very accurate and there is a lot of great stuff in this book
